### COMMUNICATIONS.

and creams and powders in the world won't make a good complexion if the digestion is wrong. If the stomach is sour, and the liver torpid, and the bowels constipated, the skin will show it. No use trying to treat the skin for such a condition. The only way to relieve it is to cleanse the sys-tem and purify the blood. As long as the heart is pumping impurities to every part of the body, just so long these impurities

will show through the skin.

Dr. Pierce's Golden Medical Discovery good for the complexion because it akes the whole body healthy-because it clears and purifies the blood, makes the digestion strong and clears out impurities of all kinds. By increasing the ability to assimilate nutritious food, and by the in-fusion of its own ingredients, it enriches the blood and so makes tolid, healthy flesh. It fills out the hollows, rubs out wrink-les and substitutes for sallowness a rosy, healthy glow. There is no mystery about it. It isn't a miracle. It is merely the re-sult of a combination of rational, natural common sense with expert medical knowledge. It cures diseases of the lungs, liver, stomach, bowels, skin and scalp, simply because all these diseases spring from the same cause—a disordered digestion and consequent impure blood. Don't let prejudice and scepticism cheat you out of your health. Dr. Pierce's Golden Medical Discovery will positively cure you, if suffering from diseases named above.

If you want to know hundreds of great l truths, send 31 one-cent stamps to over customs and mailing only, and we will send you free a copy of Dr. Pierce's roos page book, "Common Sense Medical Ad-viser." Address, WORLD's DISPENSARY MEDICAL ASSOCIATION, Bullalo, N. Y.

all the churches of the city to-day in connection with the convention of the Bantist Young People's Union of America. At 11 o'clock the pulpits of the city were filled by the visiting ministers.

This afternoon at the First Baptist church. Rev. Robert F. Y. Pierce, of Philadelphia, the famous "chalk talk" artist, gave an impressive demonstration of his work, which has become world famous. With chalk upon a pad of paper he illustrated the plainest, simplest lessons of religion and mortality by hogsely pictures. He was accompanied by his wife, who assisted in the work.

He was accompanied by his wife, who assisted in the work.

Rev. J. B. Hawthorn, the distinguished Baptist divine of Nashville, preached the convention sermon at the Auditorium this afternoon to 5,000 people. His subject was, "The ideal Christian Man," his text being taken from Proverbs iv:18.

The evening was given up to a dedication service of unusual interest. The meeting opened with a general devotional and praise service, in which the vast congregation foliaed the choir in singing popular hymns.

gation foined the choir in singing popular hymns.

The service was followed by a consecration address delivered by Rev. C. E. Wolfin, of Frooklyn, N. Y. The consecration service lasted from 8 to 16 o'clock, and was conducted by General Secretary E. E. Chivers, D. D. of Calcago, A roll of the states was called and the representatives of the Union thereupon arose and formally consecrated the union of his state to the service and work as outlined by this convention. The scene was an inspiring one and never before can old Baptists remember of seeing so much general spirit of devotion to the cause exhibited at any convention of delegates. All sectional lines were completely wiped out, the North, the South, the East and the West vicing with each other as to which should show the most ardent devotion to the common cause.

To night's services close the regular

CRUSE

To-night's services close the regular convention proceedings, though several ralities will be held to-morrow and a service will be held at Snodgrass Hill, in the National park, at which parriotic addresses and songs will be mingled with the religious exercises.

Why don't you try Carter's Little Liver Pills? They are a positive cure for sick headache and all the ills produced by dis-ordered liver.

## PETTIS COUNTY COAL FIND.

claims to have found an almost inexhausti-ble field of bituminous coal just north of MONEY FOR CUBAN PRISONERS. ble field of bituminous coal just north of Lamonte, Petils county, and has completed extensive arrangements for working its mines. The company is composed of Dr. J. E. Sawyer. William McQuade. J. W. Silk and F. W. Seeley, all former citizens of St. Paul, Minn., but now residents of Scalila. They are capitalists and experienced mine operators, and believe they nave struck a bonanga in Petils county. The holsting machinery and engines were purchased last week in Kansas City, and a Sedalla firm is completing an order for fifty dails firm is completing an order for fity plt cars. The coal vein which will be worked is reached at a depth of seventy feet and runs from thirty-six to forty inch-es in thickness.

Many persons keep Carter's Little Liver Pills on hand to prevent billous attacks, sick headache, dizziness, and find them just what they need

vows to remain steadfast and to devote will continue to infest until the return to

the plain below on the backs of the Indians.

A large church and a graveyard some 200 feet in diameter take up all the space not filled by houses. The graveyard is made ground. A space between two rocks was filled up with earth. For centuries this has been the burial ground for the tribe. The water used is carefully gathered from rairfalls in hollows scooped out of the solid rock with an extensive watershed.

The Mesa Encantada is just a mile and a half to the northeast. It is a rock of similarly abrupt and precipitous characteristics, narrower in girth but 200 feet higher. The top appears to be level. But authentic history has no record that it has ever been visited by either white or red man.

Legend, however, supplies this deficiency. According to that legend the summit of the Mesa Encantada was the original site of the Acoma village. The tribe then was larger and more powerful than it is to-day. Their houses, like the Acoma houses of the present, occupied all the available space. Consequently, the inhabitants had to support themselves by agriculture in the plains below, but some miles away from the base of the rock. During the planting and harvesting season all the able bodied Indians dein location of coinage or currency laws, so long as existing British industrial prospers.

If yendures.

The McKinley administration is actively of condeavoring, as the Republican platform of 18% requires, to promote the free coinage of 18% requires to promote the free working in concert, under the law enacted by the last congress, which Cleveland appropries to five the last congress, which Cleveland appropries to five the last congress, which Cleveland approved. The question of dates to be adopt to a skept in abeyance. There is every horospect of an international conference to the held within a short time, and probably to assemble in Paris.

Everopean bimetailists believe that if, in the failure of international bimetailism, we have season all the able bodied Indians descended the precipitous ladder rock, During the planting and harvest-ling season all the able bodied Indians descended the precipitous ladder rock, During the planting and harvest-ling season all the able bodied Indians descended the precipitous ladder rock, During the planting and harvest-ling season all the able bodied Indians descended the precipitous ladder rock, During the planting and harvest-ling season all the able bodied Indians descended the precipitous ladder rock, During the rock. During the plant

their lives to the service of Christ. At Massey Music hall, the greatest meeting was held, the building being crowded to its fullest capacity by over 5.000 persons. Addresses were delivered by Dr. John D. will suffer no violation of its sanctity.

MINES SHORT OF WATER.

Notwithstanding, the Lend and Zine Output Last Week Was

Fairly Heavy. Joplin, Mo., July 18 .- (Special.) Although

many of the mines were so short of water as to affect their working, and others had to shut down entirely for want of water, the past week was fairly active in the pro-duction of both zine and lead ores. The sales of zinc ore showed an increase of fourteen carloads over those of the preceding week, while the sales of lead ore

ceding week, while the sales of tead ore were two carloads less. There is a surplus of about 500,000 pounds of lead ore being held for better prices.

The top price paid for zine ore was \$22 per ton, but the ruling price paid was \$22.50. The market opened strong, but was weakened by the coal minera' strike in Illinois, smelters purchasing about one-fourth of the zine ore of this district are directly affected by the advance in coal prices.

Lead ore started in at \$2.25 per 1,000 pounds, and on Thursday the price was advanced to \$22.50. The bulk of the lead ore sold for \$22. The market closed firm at \$2.25, per 1,000 pounds, and on Thursday the price was advanced to \$22.50. The bulk of the lead ore sold for \$22. The market closed firm at \$22.50, or withstanding a drop in the price of pig lead in the \$1. Louis market.

The corresponding week of last year zinc ore brought \$20.50 per ton, and lead one \$150 per 1,000 pounds. Better prices are expected for both ores and the coming weeks promise considerable activity in mining.

The following are the sales of zine and lead one in the district for the week ending July 17:

Zine Lead Value.

### MISERLY TO THE LAST.

The Passing of "Halte Sven," Worth a Quarter of a Million Dollars, at Chlengo.

Chicago, July 18 .- "Halte Sven," a charocter of the North side for some fifty rears, died at the Alexian Brothers' hospital, as the result of a fall from the secnd story of a building at Hobbie street and Milton avenue. "Halte Sven"-which means "Lame Sven"-was a miser. His name was S. U. Johnson, but few knew . He owned a score of apartment houses on the North side and his wealth is esti-mated at \$55,000. But the old man had lived for years on what he could find in the garbage boxes of the neighborhood. If lived for years on what he could find in the garbage boxes of the neighborhood. If any of his Swedish countrymen offered him a drink he requested to be given the coin it would cost and pocketed it with thanks.

Many stories are told of "Haite Sven's" peculiarities. One day he called at one of his handsome apariment houses, and a servant who did not know him came to the door. She assumed he was a tramp and, without questioning, gave him some food. He engerly devoured the food and then astonished the girl by requesting her to tell her master the landlord had been there for the rent. He died bewalling the expense incurred at the Alexian Brothers' hospital and almost with his last breath hegged to be removed to the free county hospital.

Svenska Kuriren says of the old man: "It is a dark page of life, and at great variance from the normal Swedisn character. Not a single noble, self-sacrificing deed or thought can be brought forward to cast a roseate hue over the open grave. With all his wealth he was poor and without the slightest joy, happiness, love, friendship or regrets surrounding the end of his seventy-four years of life."

Even before the fire "Haite Sven" was wealthy, and shrewd investments, their earnings and no expenditures did the rest, A sister in Minneapolis is his only heir.

CHINESE TO BUY UP CONGRESS.

CHINESE TO BUY UP CONGRESS. Rumored That a Chicago Society Is Raising a Fund for That

Purpose.

San Francisco, July 18 -- A hold conspiracy on the part of a Chinese society of Chicago to secure if possible stitzenship for

sether such arms as they could find, and appeared in force at the base of the Mexa. When the whites approached they beat them off before a single sacrilegious spike had been applied to the shrine.

Professor Litby is forewarned. He knows the danagers that face him. He and his party are armed with the latest appliances of warfare. They do not intend to yield ewithout a struggle. And they will probably prove more than a match for their opponents, if they meet with any opposition.

But the issue will be watched with interest by the whole civilized world. After the Acomas have been subdued they will have to meet the even more serious problem as to how the 50 feet of towering cliff may best be scaled.

That developments of the most important character may meet them on the summit is more than probable. It is unlikely that the Acoma legend is all a legend. Some residum of fact may remain after the mythic elements have been eliminated. If it is found that in the remote ages of the past a prehistoric tribe of Indians occupied this now inaccessible spot, it is obvious that they must have left behind.
